<SGB/> DEV APPS

# Kaigi

会議 · “meeting” in Japanese

Agendas, minutes, tasks and decisions for teams that meet every week. On your own PC.

A desktop app by SGB Dev Apps · Windows · works offline

THE PROBLEM

# Meetings end. The follow-ups get lost.

### Notes in five places

A notebook, a chat thread, a shared document, an email: nobody knows which one is the record.

### Tasks without owners

“Someone will look into it” is agreed, and next week nobody did.

### Decisions get re-opened

Without a log, the same question is debated again, and the latest answer is unclear.

### Every week starts from zero

Last week’s open items are rebuilt by hand before each meeting, if anyone remembers.

MEET KAIGI

# One place for the agenda, the minutes and everything that follows.

**Windows desktop**
Installs per user. No server to run.

**Works offline**
Meeting room, client site or plane: no connection needed.

**Your data, your PC**
One local database. Nothing goes to a cloud.

**Multilingual**
English, 日本語 and தமிழ் names and minutes.

HOW IT WORKS

# One cycle, every meeting

1

**Agenda**

From a template, with last time's open items already in.

2

**Live minutes**

Type notes, decisions and tasks as you talk.

3

**Approve and send**

A clean PDF on your letterhead and an email draft.

4

**Follow up**

Tasks, decisions and reminders, all in one place.

5

**Carry forward**

Open items return next time under their original numbers.

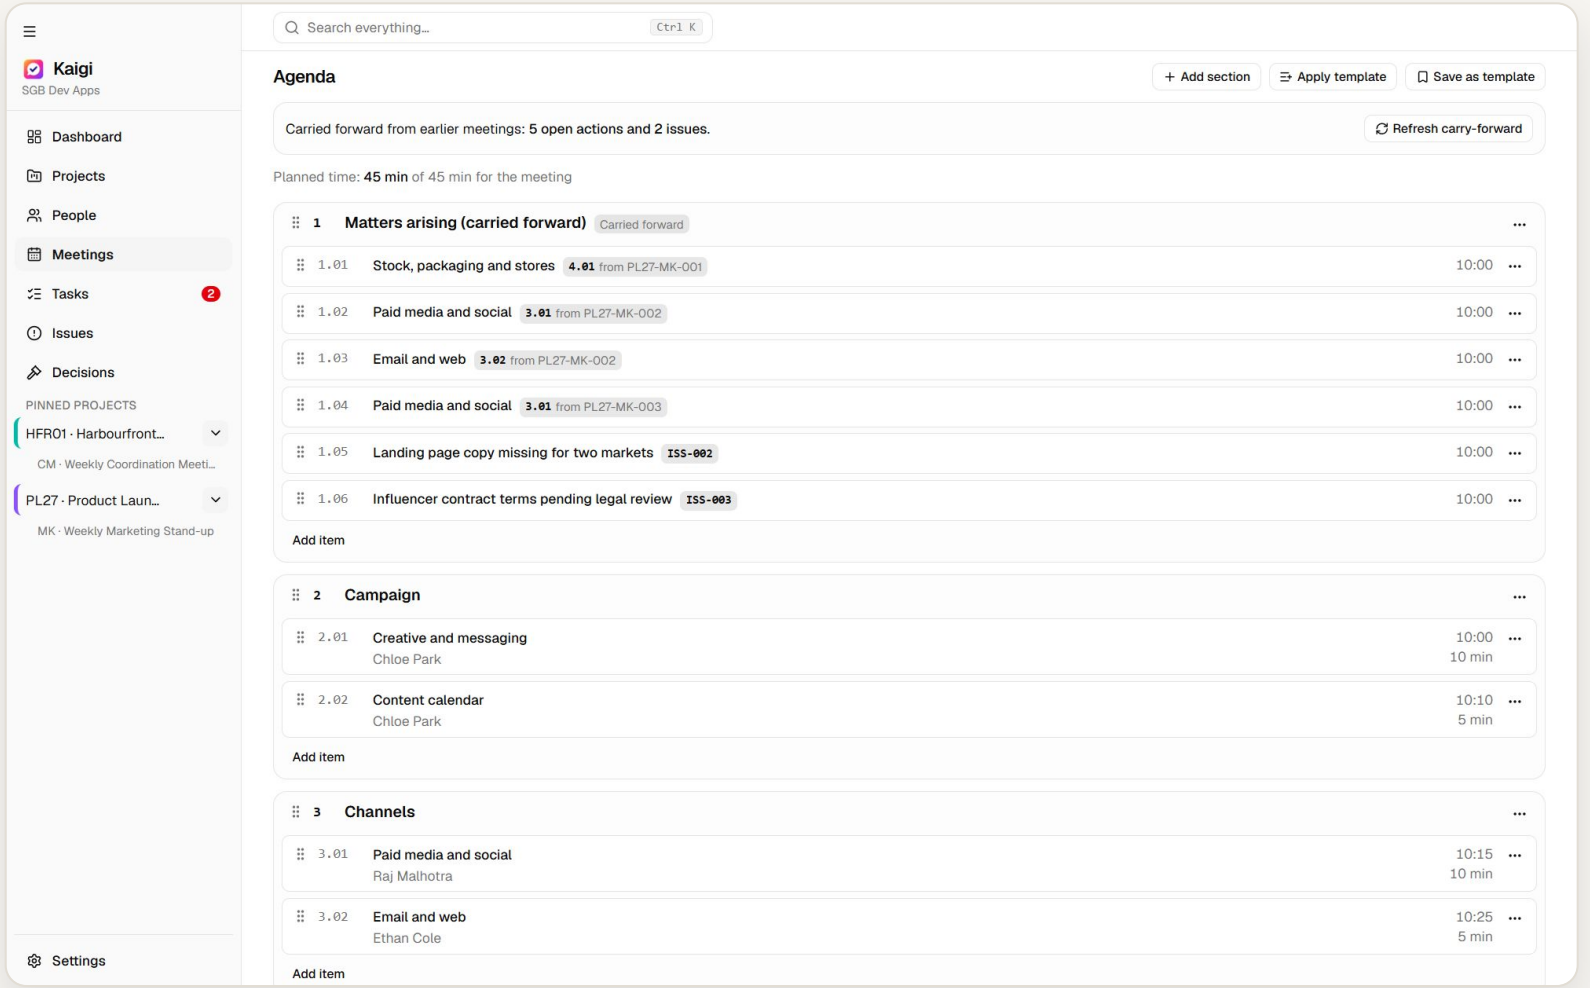

Then the next meeting starts with everything that is still open. Nothing is retyped.

STEP 1 · AGENDA

# An agenda ready before you sit down

Sections and numbered items with presenters and times, from your own template.

Open tasks and topics from earlier meetings are already listed under “Matters arising”.

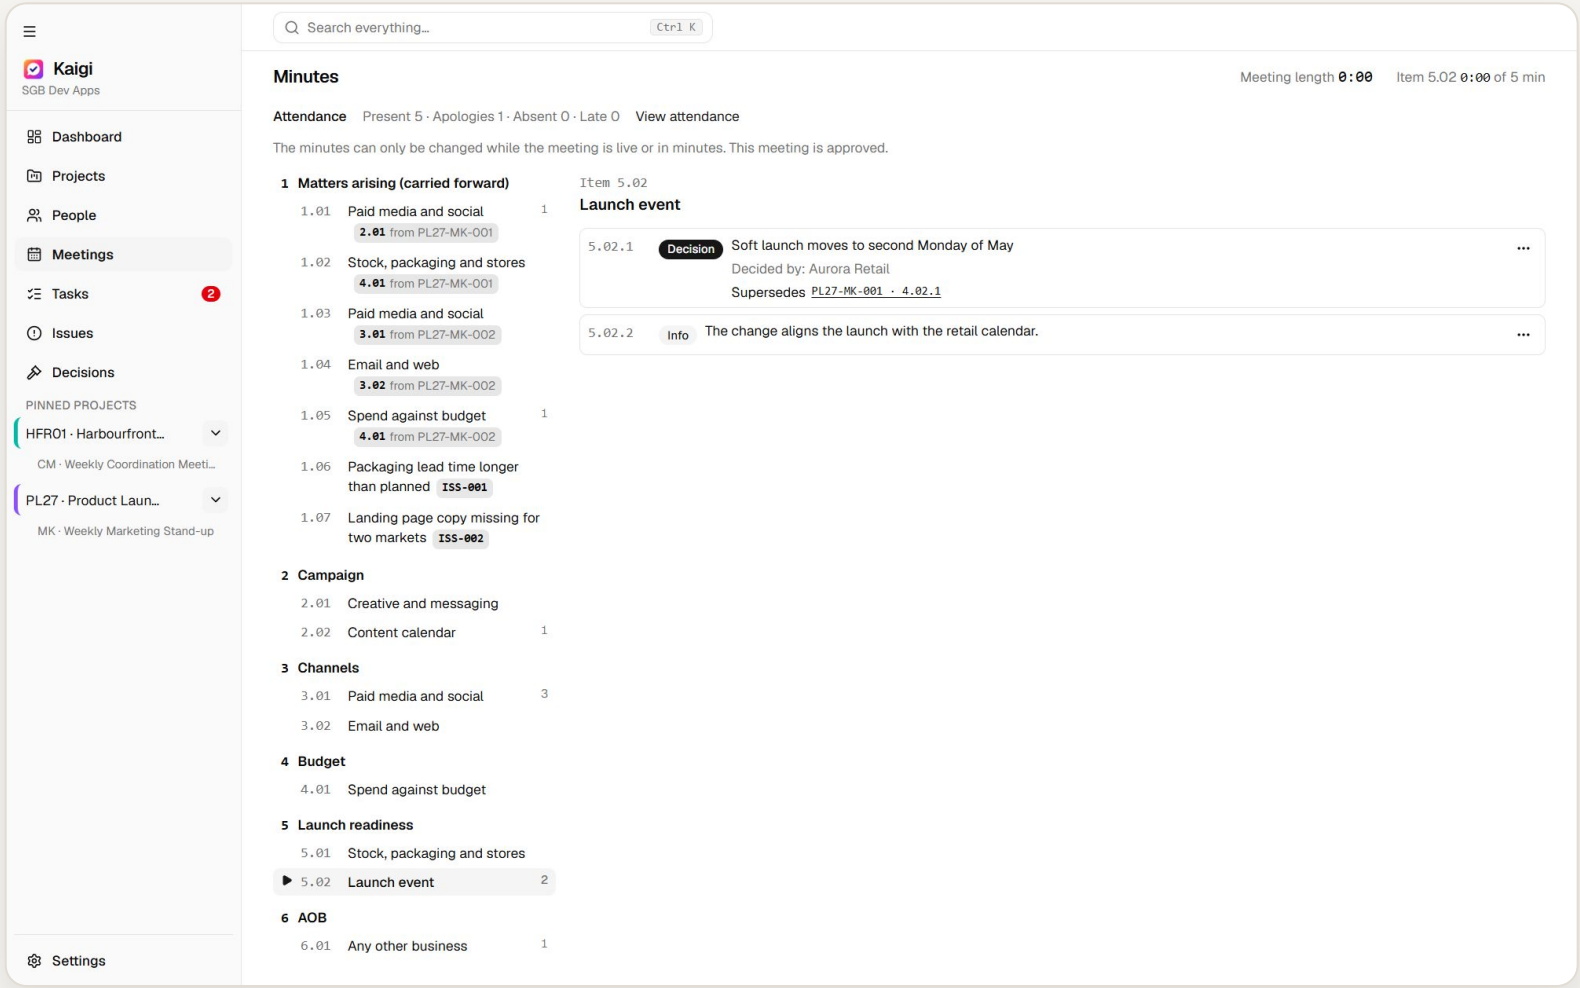

STEP 2 · LIVE MINUTES

# Minutes written while you talk

Each entry is a note, a discussion, a decision or a task, filed under its agenda item.

Tasks get an owner and a due date on the spot. When a decision replaces an older one, Kaigi links the two.

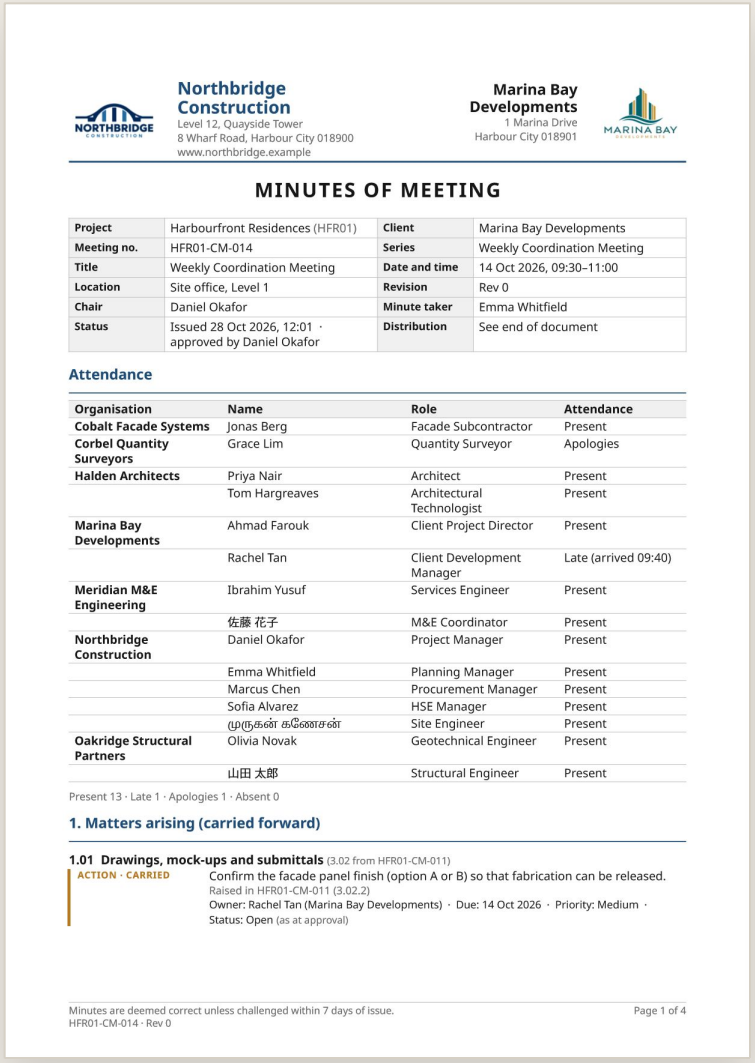

STEP 3 · APPROVE AND SEND

# Professional minutes, ready to send

Approving locks the minutes and makes a PDF with your logo and your client's.

- Attendance, decisions and a task register
- Each revision kept exactly as sent
- Outlook email draft to the distribution list, plus Word and Excel copies

**Northbridge Construction**
Level 12, Quayside Tower
8 Wharf Road, Harbour City 018900
www.northbridge.example

**Marina Bay Developments**
1 Marina Drive
Harbour City 018901

## MINUTES OF MEETING

| | | | |
|---|---|---|---|
| **Project** | Harbourfront Residences (HFR01) | **Client** | Marina Bay Developments |
| **Meeting no.** | HFR01-CM-014 | **Series** | Weekly Coordination Meeting |
| **Title** | Weekly Coordination Meeting | **Date and time** | 14 Oct 2026, 09:30–11:00 |
| **Location** | Site office, Level 1 | **Revision** | Rev 0 |
| **Chair** | Daniel Okafor | **Minute taker** | Emma Whitfield |
| **Status** | Issued 28 Oct 2026, 12:01 · approved by Daniel Okafor | **Distribution** | See end of document |

### Attendance

| Organisation | Name | Role | Attendance |
|---|---|---|---|
| **Cobalt Facade Systems** | Jonas Berg | Facade Subcontractor | Present |
| **Corbel Quantity Surveyors** | Grace Lim | Quantity Surveyor | Apologies |
| **Halden Architects** | Priya Nair | Architect | Present |
| | Tom Hargreaves | Architectural Technologist | Present |
| **Marina Bay Developments** | Ahmad Farouk | Client Project Director | Present |
| | Rachel Tan | Client Development Manager | Late (arrived 09:40) |
| **Meridian M&E Engineering** | Ibrahim Yusuf | Services Engineer | Present |
| | 佐藤 花子 | M&E Coordinator | Present |
| **Northbridge Construction** | Daniel Okafor | Project Manager | Present |
| | Emma Whitfield | Planning Manager | Present |
| | Marcus Chen | Procurement Manager | Present |
| | Sofia Alvarez | HSE Manager | Present |
| | முருகன் கணேசன் | Site Engineer | Present |
| **Oakridge Structural Partners** | Olivia Novak | Geotechnical Engineer | Present |
| | 山田 太郎 | Structural Engineer | Present |

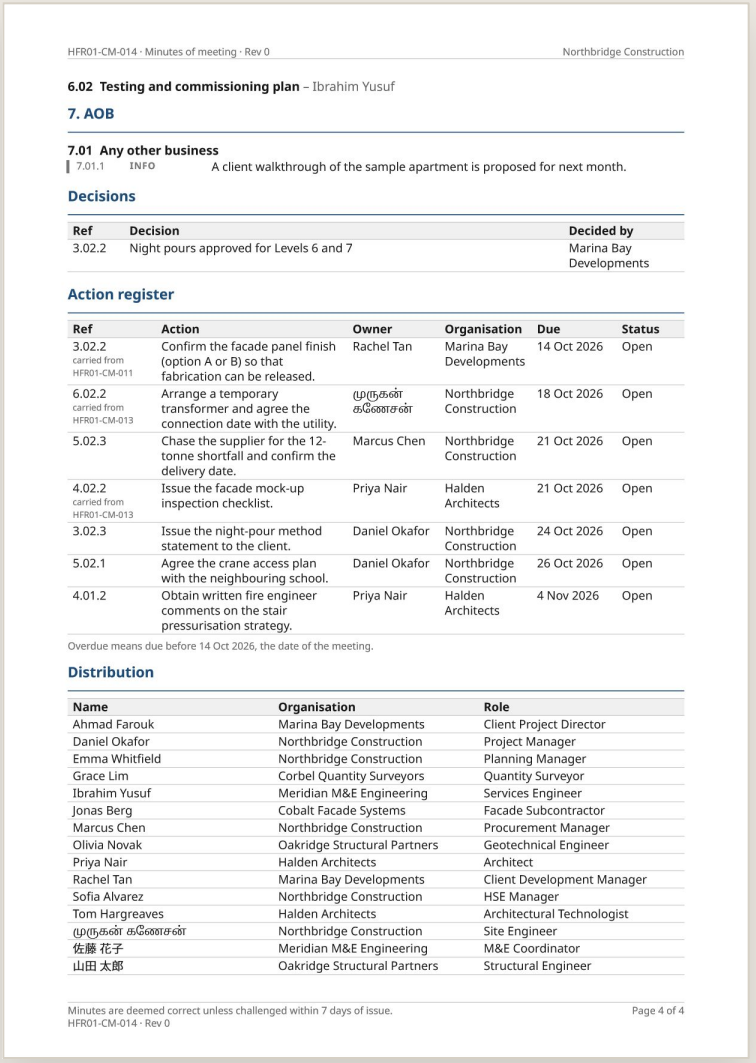

Present 13 · Late 1 · Apologies 1 · Absent 0

### 1. Matters arising (carried forward)

**1.01 Drawings, mock-ups and submittals** (3.02 from HFR01-CM-011)

ACTION · CARRIED — Confirm the facade panel finish (option A or B) so that fabrication can be released.
Raised in HFR01-CM-011 (3.02.2)
Owner: Rachel Tan (Marina Bay Developments) · Due: 14 Oct 2026 · Priority: Medium · Status: Open (as at approval)

Minutes are deemed correct unless challenged within 7 days of issue.

Northbridge Construction

**6.02 Testing and commissioning plan** – Ibrahim Yusuf

### 7. AOB

**7.01 Any other business**

7.01.1 INFO — A client walkthrough of the sample apartment is proposed for next month.

### Decisions

| Ref | Decision | Decided by |
|---|---|---|
| 3.02.2 | Night pours approved for Levels 6 and 7 | Marina Bay Developments |

### Action register

| Ref | Action | Owner | Organisation | Due | Status |
|---|---|---|---|---|---|
| 3.02.2 carried from HFR01-CM-011 | Confirm the facade panel finish (option A or B) so that fabrication can be released. | Rachel Tan | Marina Bay Developments | 14 Oct 2026 | Open |
| 6.02.2 carried from HFR01-CM-013 | Arrange a temporary transformer and agree the connection date with the utility. | முருகன் கணேசன் | Northbridge Construction | 18 Oct 2026 | Open |
| 5.02.3 | Chase the supplier for the 12-tonne shortfall and confirm the delivery date. | Marcus Chen | Northbridge Construction | 21 Oct 2026 | Open |
| 4.02.2 carried from HFR01-CM-013 | Issue the facade mock-up inspection checklist. | Priya Nair | Halden Architects | 21 Oct 2026 | Open |
| 3.02.3 | Issue the night-pour method statement to the client. | Daniel Okafor | Northbridge Construction | 24 Oct 2026 | Open |
| 5.02.1 | Agree the crane access plan with the neighbouring school. | Daniel Okafor | Northbridge Construction | 26 Oct 2026 | Open |
| 4.01.2 | Obtain written fire engineer comments on the stair pressurisation strategy. | Priya Nair | Halden Architects | 4 Nov 2026 | Open |

Overdue means due before 14 Oct 2026, the date of the meeting.

### Distribution

| Name | Organisation | Role |
|---|---|---|
| Ahmad Farouk | Marina Bay Developments | Client Project Director |
| Daniel Okafor | Northbridge Construction | Project Manager |
| Emma Whitfield | Northbridge Construction | Planning Manager |
| Grace Lim | Corbel Quantity Surveyors | Quantity Surveyor |
| Ibrahim Yusuf | Meridian M&E Engineering | Services Engineer |
| Jonas Berg | Cobalt Facade Systems | Facade Subcontractor |
| Marcus Chen | Northbridge Construction | Procurement Manager |
| Olivia Novak | Oakridge Structural Partners | Geotechnical Engineer |
| Priya Nair | Halden Architects | Architect |
| Rachel Tan | Marina Bay Developments | Client Development Manager |
| Sofia Alvarez | Northbridge Construction | HSE Manager |
| Tom Hargreaves | Halden Architects | Architectural Technologist |
| முருகன் கணேசன் | Northbridge Construction | Site Engineer |
| 佐藤 花子 | Meridian M&E Engineering | M&E Coordinator |
| 山田 太郎 | Oakridge Structural Partners | Structural Engineer |

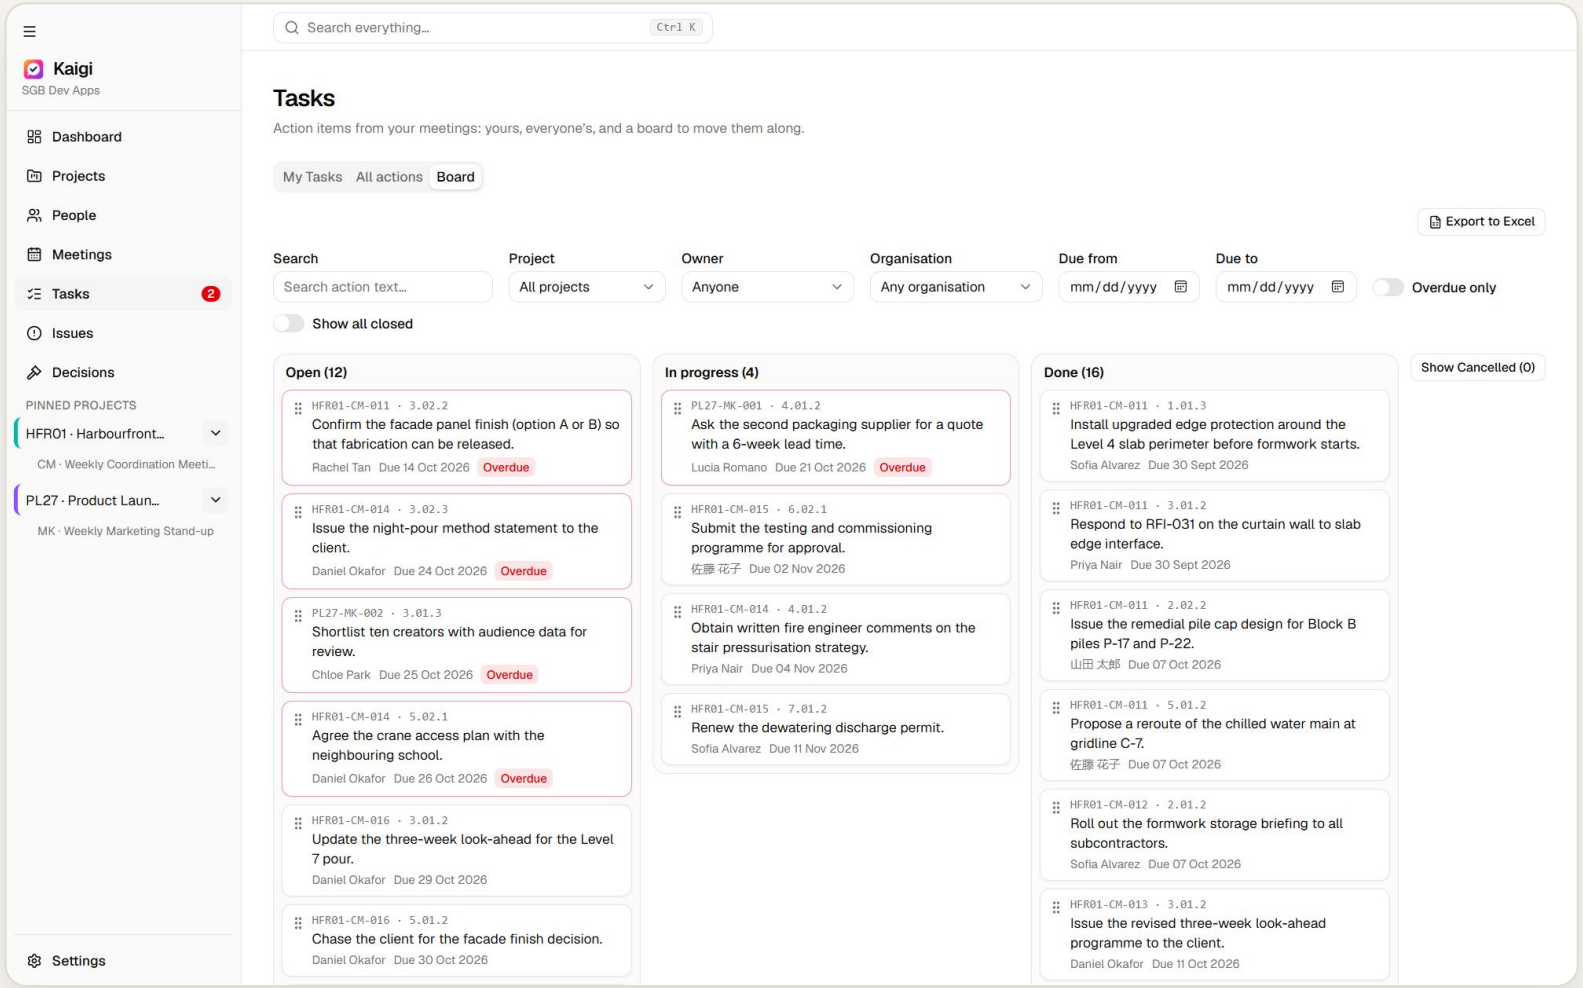

Minutes are deemed correct unless challenged within 7 days of issue.

TASKS

# Every task has an owner and a date

My Tasks, all tasks across projects, or a board from Open to Done.

Each task shows the meeting it came from. Overdue is marked in words, not only in red.

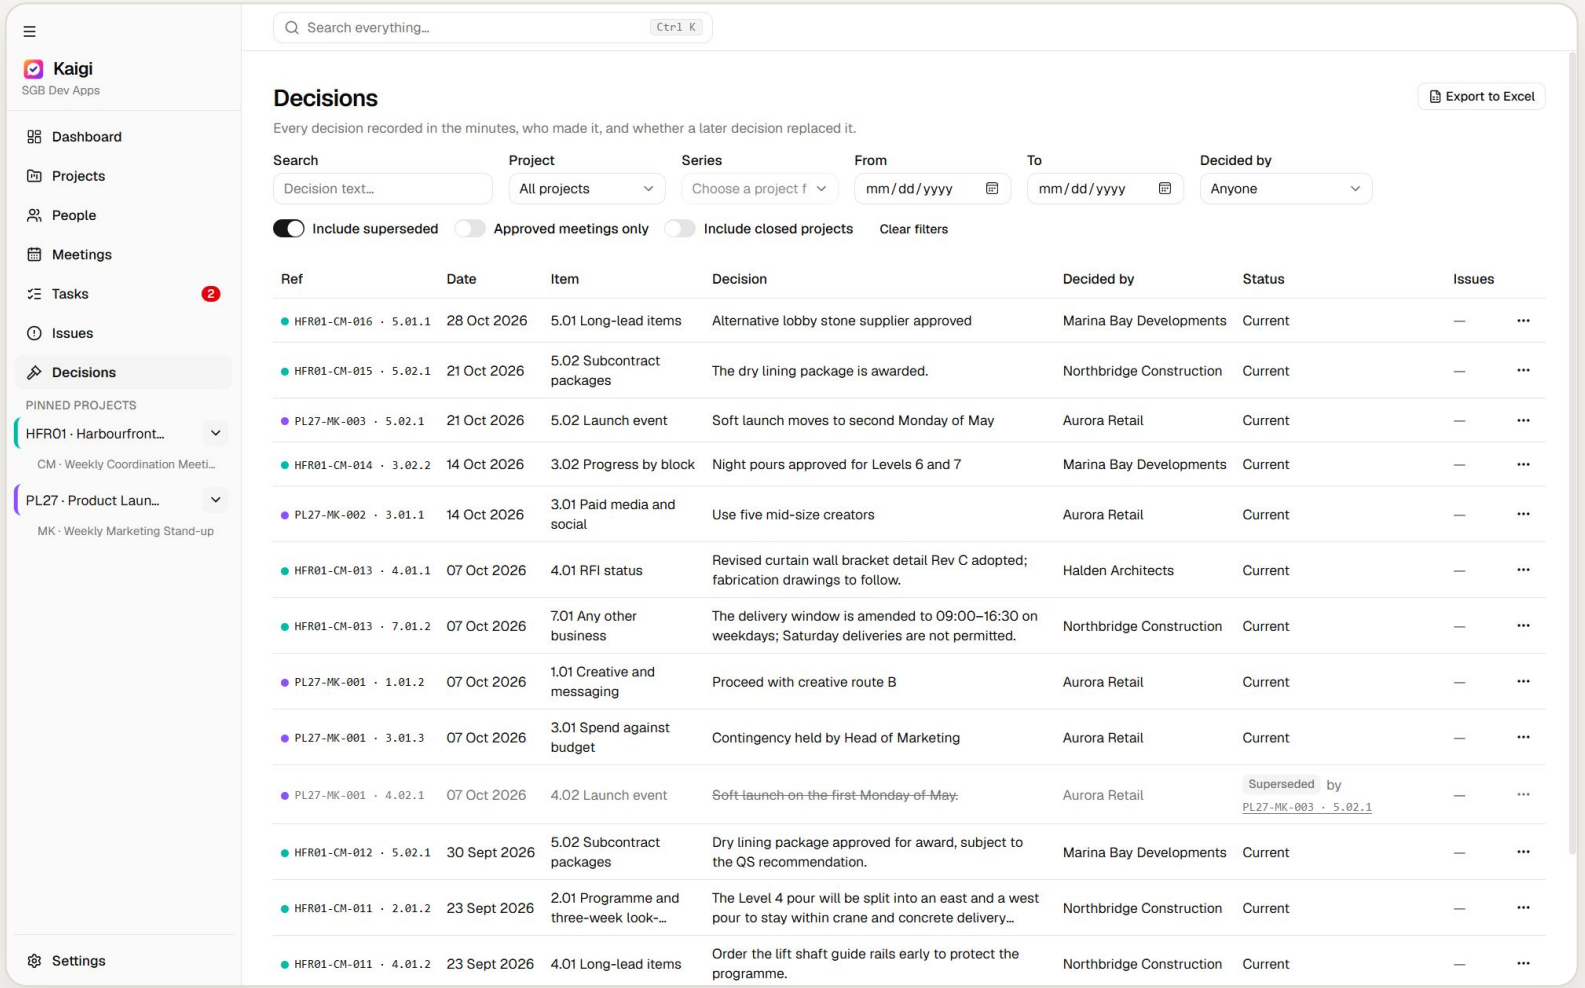

DECISIONS

# One log of what was decided

Every decision with its date, meeting and who made it.

When a later decision replaces an earlier one, the old one is struck through and points to the new one.

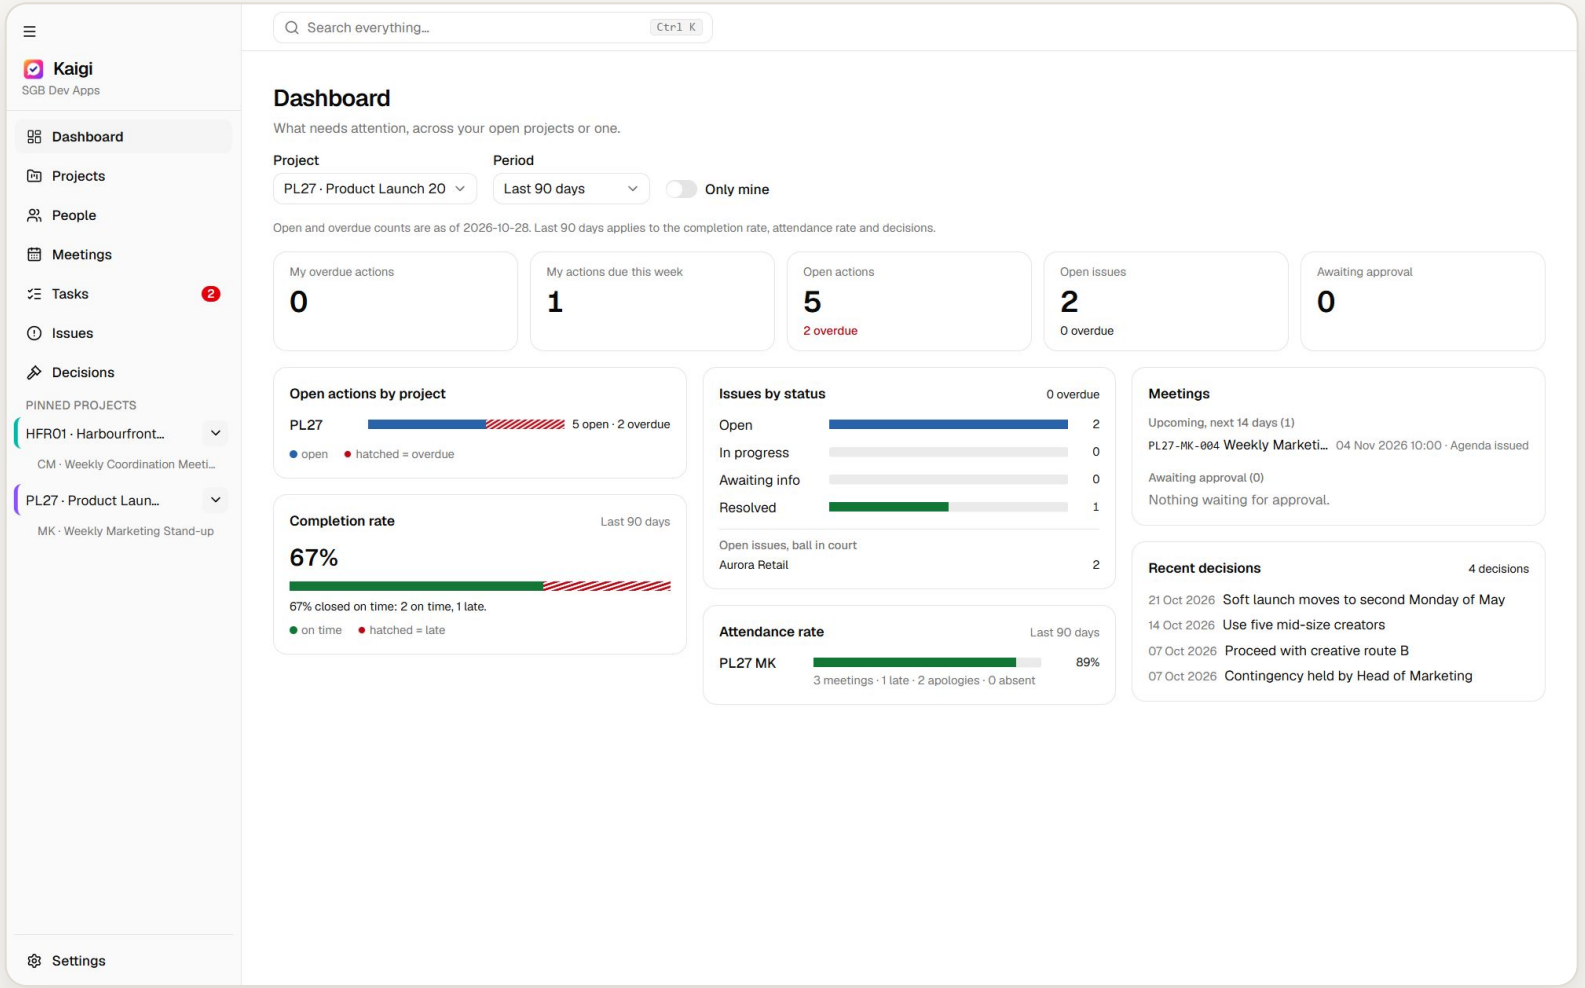

DASHBOARD

# What needs attention, at a glance

Overdue tasks, open topics, upcoming meetings, completion and attendance rates.

Filter by project, period or “only mine”.

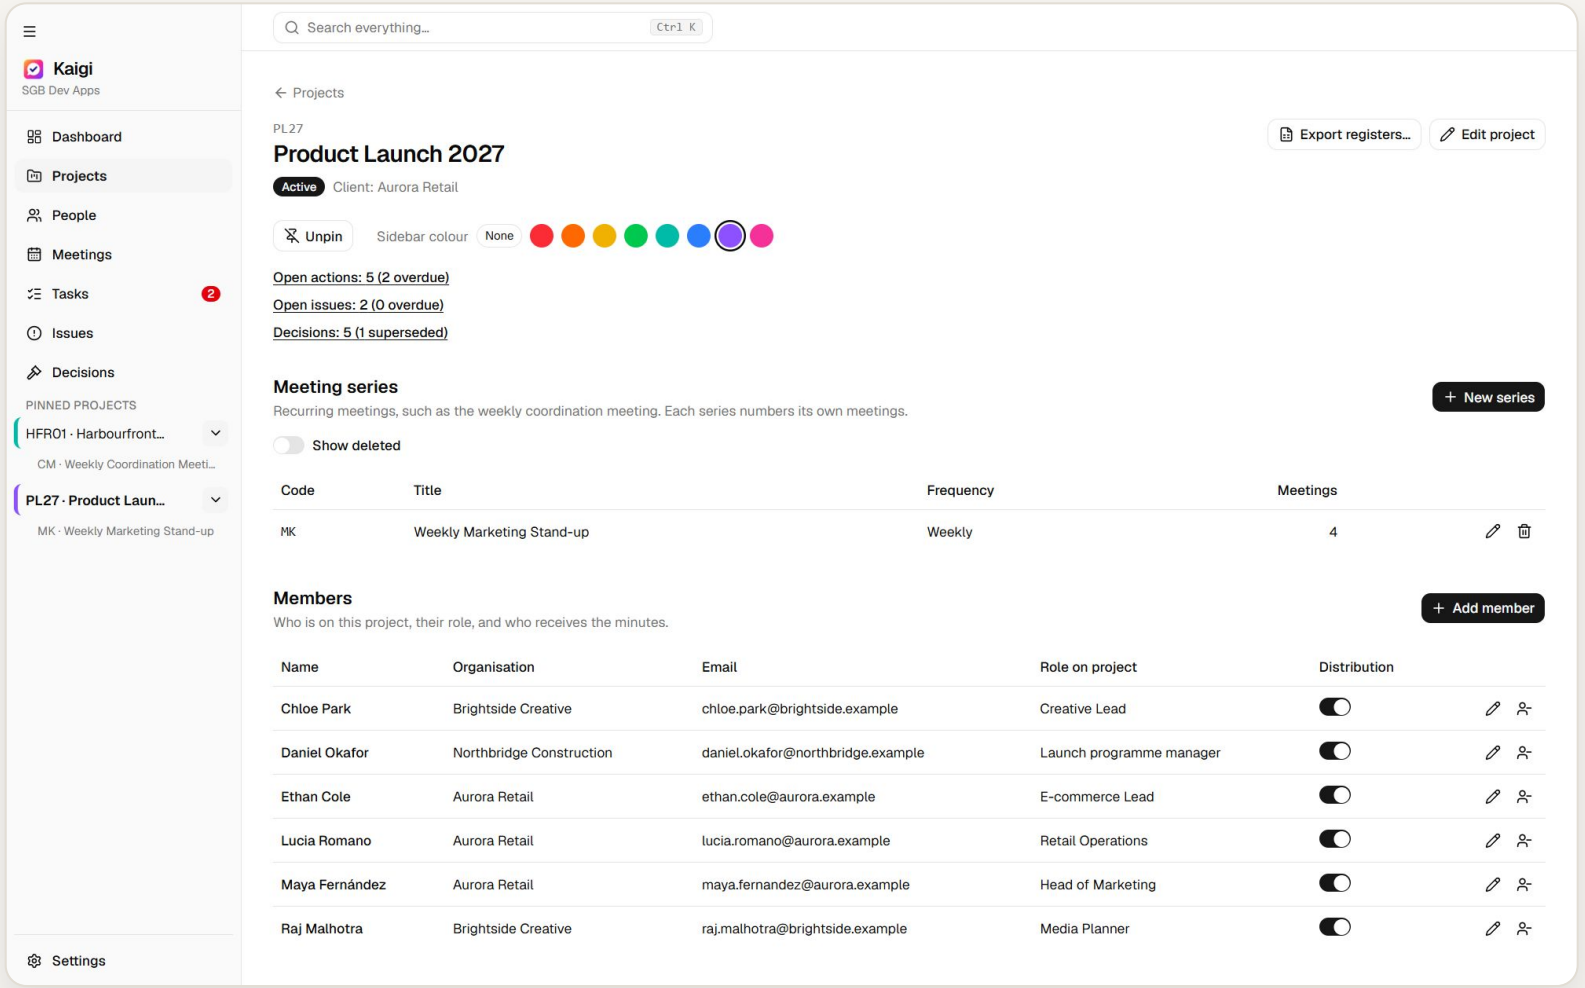

Every number opens the list behind it.

PROJECTS AND PEOPLE

# Everyone in one directory

People and organisations are kept once and used in any project, with their role and whether they get the minutes. Each project shows its meeting series, members and open counts. Bring contacts in from Excel or CSV.

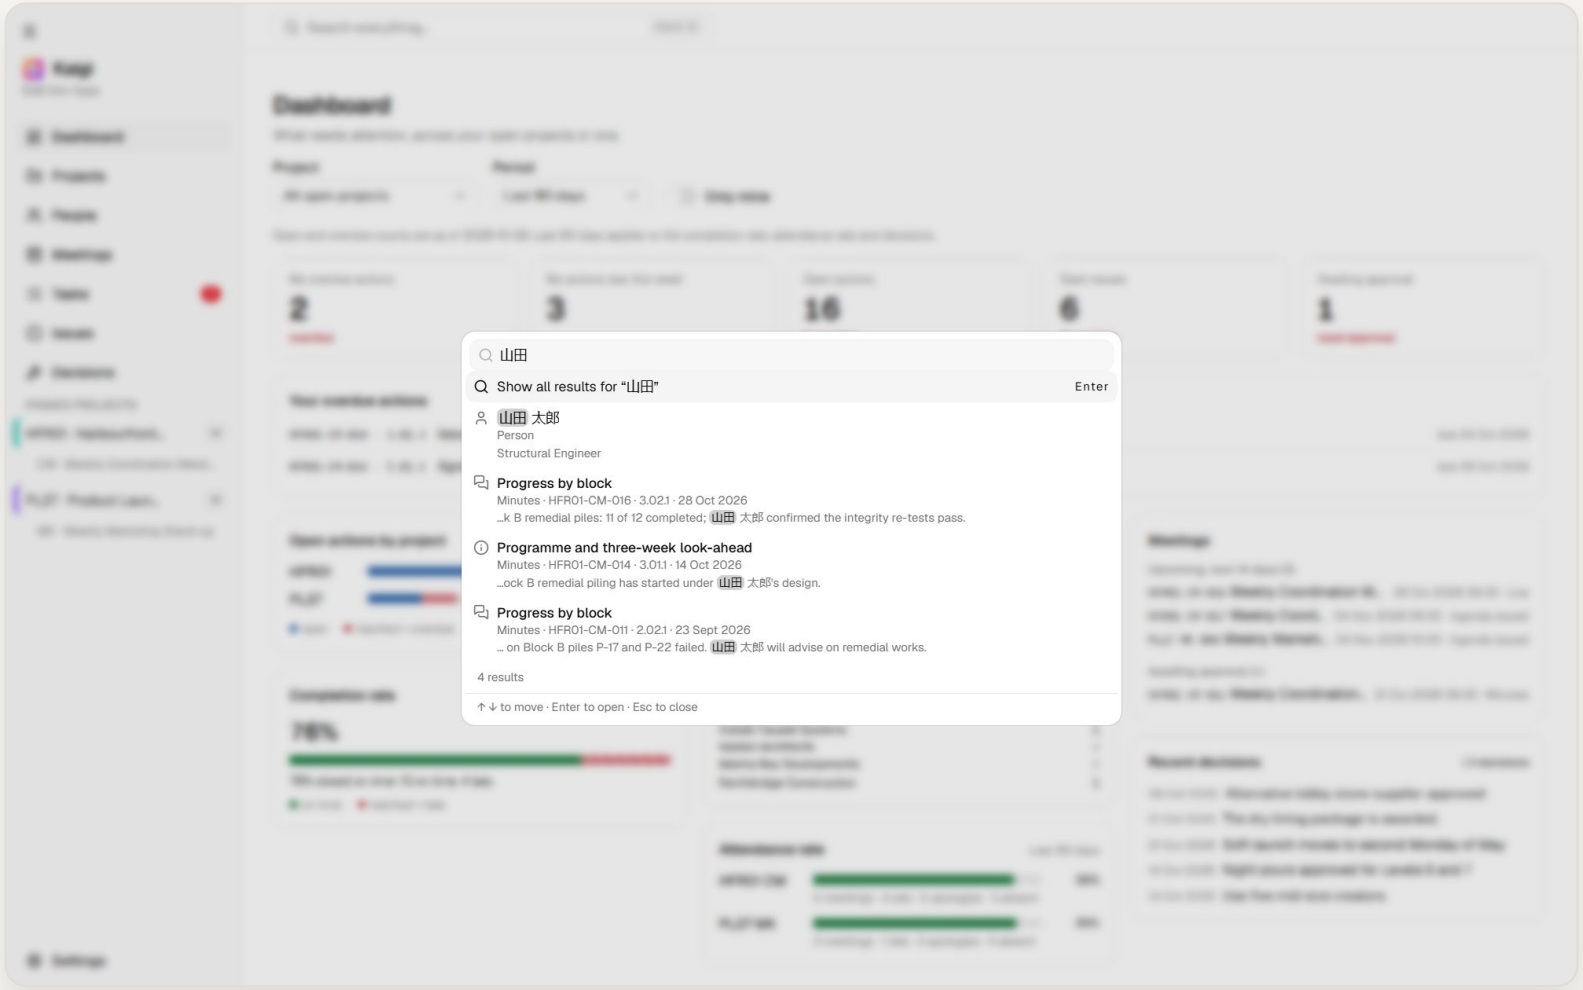

SEARCH

# Find what was said, in seconds

Ctrl+K searches meetings, minutes, tasks, decisions, people and file names across all projects.

Works for Japanese names like 山田, Tamil text and accents: José or Jose finds both. Each result opens the exact entry.

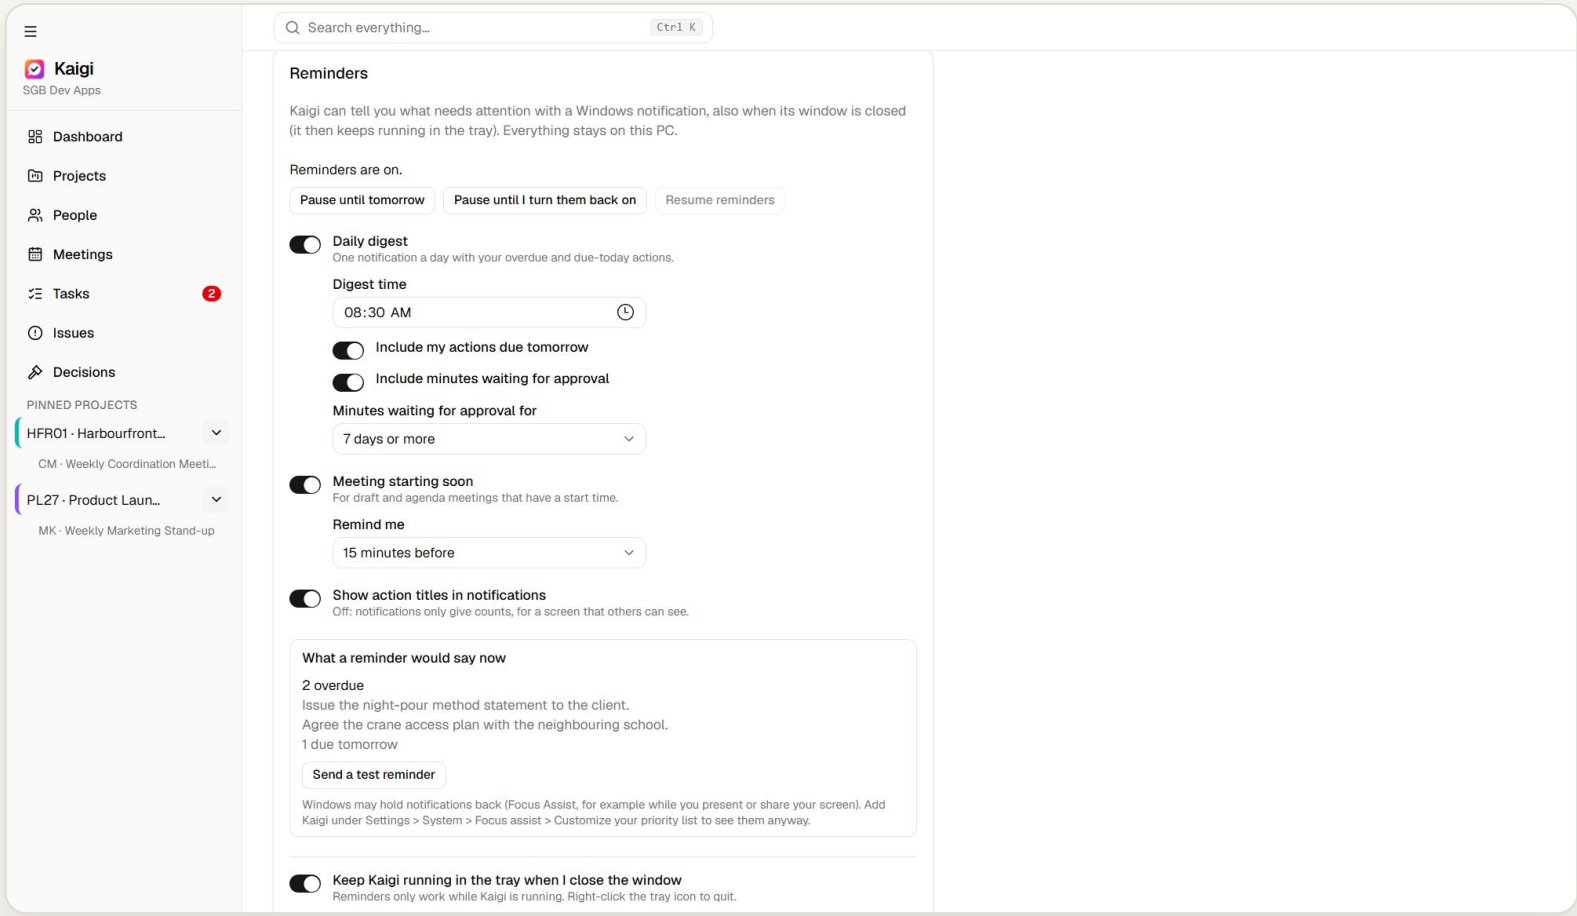

REMINDERS

# A nudge before it is late

A morning digest of your overdue and due-today tasks, and a reminder before each meeting.

Kaigi waits quietly in the Windows tray. Show counts only when others can see your screen.

PRIVACY AND RECORD

# Your minutes stay yours, and every change is on record

### On your PC

One local database file. No account, no cloud, no internet needed.

### History everywhere

Each meeting, task and person shows what changed and when, in plain words.

### Frozen revisions

A sent PDF never changes. Reopening needs a reason and makes the next revision.

### Append-only log

The audit log can only grow. An audit page filters it and exports it to Excel.

### Delete with restore

Deleted projects, meetings and issues can be brought back.

### Moving PCs (planned)

A password-protected backup file to move everything to a new PC.

EDITIONS (PLANNED FOR VERSION 1.0)

# Lite is free. Pro adds the heavy lifting.

| Feature | Lite (free) | Pro (licence key) |
|---|---|---|
| Meetings, agenda, live minutes, attendance | Yes | Yes |
| Tasks, issues, decisions, carry-forward, attachments | Yes | Yes |
| Minutes PDF | Yes, small Lite footer | Yes, no footer |
| Email draft and calendar invite | Yes | Yes |
| Search, reminders, templates, history | Yes | Yes |
| Dashboard | Basic | Full |
| Word minutes and Excel registers | No | Yes |
| Import old minutes and registers | No | Yes |
| Audit page with Excel export | No | Yes |
| Local AI assistant (planned) | No | Yes |
| Open projects | Up to 5 | Unlimited |

Your data is never locked: over the limit, extra projects turn read-only, and export and backup always work. Price: [to be set].

COMING NEXT (PLANNED)

# A local AI assistant that never leaves your PC

### Draft minutes from a recording

Record the meeting or capture a Teams call. Kaigi transcribes it and drafts each agenda item. You approve every line.

### Ask your meetings

“When did we move the launch date?” Answers come from your own minutes, with links to the entries.

### Off by default

The AI runs on your own computer, with no internet. Switch it off and no AI process runs at all.

Also planned for 1.0: automatic updates, a signed installer, and a password-protected backup to move PCs.
